CDO/OOD Rules for the Use of Force

2. De-Escalation and the Use of Non-Deadly Force

a. When time and circumstances permit, the threatening force should be warned and given the opportunity to withdraw or cease threatening actions.

b. Normally, force is to be used only as a last resort, and the force used should be the minimum necessary. The use of force must be reasonable to counter the threat. If force is required, non-deadly force is authorized and may be used to control a situation or to provide self-defense of others, when doing so is reasonable under the circumstances.

3. The Use of Deadly Force. Deadly force is to be used only when all lesser means have failed or cannot reasonably be employed. Deadly force is authorized only under the following circumstances:

a. To protect yourself, others if you reasonably believe that you are, or they are in imminent danger of death or serious bodily harm.

b. When deadly force reasonably appears to be necessary to prevent the actual theft or sabotage of properly designated assets vital to national security.

c. When deadly force reasonably appears to be necessary to prevent the actual theft or sabotage of inherently dangerous property (e.g., explosives, weapons ammunition, etc.).

d. When deadly force reasonably appears to be necessary to prevent the sabotage of national critical infrastructure. For the purposes of Department of Defense operations, "national critical infrastructure" is defined as President-designated public utilities, or similar critical infrastructure, vital to public health or safety, the damage to which the President determines would create an imminent threat of death or serious bodily harm.

e. When deadly force reasonably appears to be necessary to prevent the commission of a serious offense that involves imminent threat of death or serious bodily harm (for example, setting fire to an inhabited dwelling or sniping), including the defense of other persons, where deadly force is directed against the person threatening to commit the offense. Examples include murder, armed robbery, and aggravated assault.

f. When deadly force reasonably appears to be necessary to prevent the escape of a prisoner, provided there is probable cause to believe that such person(s) have committed or attempted to commit a serious offense, that is one that involves imminent threat of death or serious bodily harm, and would pose an imminent threat of death or serious bodily harm to others.

g. When deadly force reasonably appears necessary to arrest or apprehend a person who, there is probable cause to believe, has committed a serious offense involving violence or threatened death or serious bodily harm and is a continued threat to the safety of others.

4. Additional Specific Instructions

a. You are prohibited from firing warning shots.

b. Your weapon will remain in Condition 1 (M9), Condition 3 (M4) and **will only be removed when:**

(3) Returning it to storage.

(4) Cleaning it in an authorized area.

c. You will show due regard for the safety of innocent bystanders when using force.

d. If you remove your pistol from its holster or M4 service rifle in times of challenging, proper notifications will be made and a Statement of Force form completed.

e. When clearing a firearm, you will follow current policies and procedures pertaining to firearms handling, clearing, and safety.

f. Clearing will be accomplished only in a designated area (i.e., clearing barrel).

g. When drawing a weapon from the armory/arms room, rounds will be drawn after ensuring the weapon is clear.

h. When returning a weapon to the armory/arms room, rounds will always be properly accounted for and turned in prior to clearing the weapon, unless a round has been chambered.

i. You will check your firearm and have it double-checked by another person to ensure that no live rounds are in the weapon and that there is no magazine inserted in the weapon.

j. You are prohibited from using a privately owned firearm or ammunition on duty.

k. Report any violation of these policies or procedures immediately to the proper authority.
