MARINE CORPS INSTALLATIONS EAST-MARINE CORPS BASE CAMP LEJEUNE BULLETIN 3770

From: Commanding General
To: Distribution List

Subj: 2013 REGIONAL AIRSPACE PLAN (RAP)

Ref: (a) OPNAVINST 3770.2 (NOTAL) Airspace Procedures

Encl: (1) MCIEAST-MCB CAMLEJ Regional Airspace Plan Format
(2) MCIEAST-MCB CAMLEJ 2013 Regional Airspace Plan Timeline

1. Purpose. Annually, Marine Corps Installations East-Marine Corps Base Camp Lejeune (MCIEAST-MCB CAMLEJ) shall develop a consolidated plan that identifies the Region's top airspace priorities in order to focus staff and subordinate commanders' current and future efforts.

2. Background. The Commanding General (CG), MCIEAST-MCB CAMLEJ has cognizance and final responsibility for all Marine Corps East Coast airspace and air traffic assets. In order to identify and promulgate the Commander's airspace priorities, the Regional Airspace Coordinator (RAC) has been tasked with synchronizing the efforts of the MCIEAST-MCB CAMLEJ Staff and Installation Commanders in order to draft a RAP. The RAP is a short and long range planning tool that is submitted annually to higher headquarters and the Federal Aviation Administration (FAA) Eastern Service Area (ESA) Office. Beyond a regulatory requirement, Regional and Installation Commanders may use the product as a reference when justifying budget requirements and focusing staff assignments throughout a given year. This Bulletin provides the guidance and timelines required for the development of the MCIEAST-MCB CAMLEJ Calendar Year 2013 RAP.

3. Action. The procedures for creating this plan shall be conducted in accordance with the format provided in enclosure (1), the timelines identified in enclosure (2), and the following guidance:

a. Regional subordinate commanders from Marine Corps Air Station (MCAS) New River, MCAS Cherry Point, MCAS Beaufort, MCB Camp Lejeune, and Marine Corps Air Facility (MCAF) Quantico will each provide individual installation level RAPs to the CG (Attn: AC/S G-3). Submissions, shall be in accordance with the format provided in enclosure (1), and shall include an installation level executive summary and a consolidated list of each Installation Commander's airspace priorities. In accordance with reference (a), data submissions should include applicable supporting documentation validating requirements and deficiencies.

b. The CG will solicit input from MCB Quantico and II Marine Expeditionary Force in order to incorporate airspace related input from adjacent commands.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

4 MAY 2012

c. The MCIEAST-MCB CAMLEJ RAC shall consolidate all individual Installation RAP products that the AC/S G-3 receives in November 2012 into a single draft RAP. This draft shall then be redistributed to the regional Commanders, as well as the II MEF and MCB Quantico staff in December 2012 for final review. The completed product shall be briefed to the CG in January 2013 for final disposition.

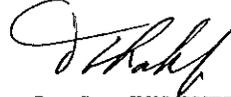

d. Point of contact for further information is Mr. David Plummer at (910) 451-1487 or david.a.plummer@usmc.mil.

4. Reserve Applicability

a. This Bulletin is applicable to Marine Corps Installations East-Marine Corps Base Camp Lejeune.

b. Input from adjacent commands is highly encouraged.

c. This Bulletin is effective the date signed.

D. L. THACKER, JR.
Deputy Commander
