SAFE
DEC 11 2012

From: Commanding General Marine Corps Installations East-Marine Corps Base
To: Commanding General II Marine Expeditionary Force (II MEF)
Subj: II MEF ANNUAL OCCUPATIONAL SAFETY AND HEALTH (OSH) FACILITY INSPECTION SCHEDULE, CALENDAR YEAR 2013
Ref: (a) MCO 5100.29B
(b) NAVMC DIR 5100.8
Encl: (1) 2013 Annual OSH Inspection Schedule

1. Per the reference, the 2013 facility inspection schedule for II MEF is listed in enclosure (1). Commands are encouraged to contact the Marine Corps Installations East-Marine Corps Base (MCIEAST-MCB) Safety Department point of contact (POC) within 30 days of the scheduled start date for further coordination and/or change due to operational commitments. In/out briefs will be provided if desired by the unit/command receiving the inspection.

2. Facility inspections will not include a comprehensive safety program review. The primary focus of these facility inspections is to ensure all MCIEAST-MCB facilities are being maintained thereby providing a safe environment for II MEF personnel.

3. All facilities inspections will be entered and tracked using the Enterprise Safety Applications Management System (ESAMS). Commands will receive their inspection results via ESAMS. Upon receipt of the results, supervisors will immediately post all RAC 1, 2 and 3 Notice of Deficiencies within sight of the hazard. Commands with hazards that cannot be abated within 30 days, must submit an abatement status update every 30 days via ESAMS until the deficiency has been corrected. All abatement actions will be tracked and processed via ESAMS.

4. The safety representative or designated person from each command must accompany inspectors throughout the inspection process. That command representative will also receive an ESAMS account so that deficiencies and abatement actions are tracked as per paragraph 3.

5. The Point of contact is Mr. Eddie Smith at 450-5930.

S. J. DUTKO, JR.
By direction
