II MARINE EXPEDITIONARY FORCE AND MARINE CORPS INSTALLATIONS EAST-
MARINE CORPS BASE CAMP LEJEUNE ORDER 5300.4D

From: Commanding General, II Marine Expeditionary Force, FMF
Commander, Marine Corps Installations East-Marine
Corps Base, Camp Lejeune

To: Distribution List

Subj: FLEET ASSISTANCE PROGRAM

Ref: (a) through (j), see enclosure (1)

Encl: (1) Fleet Assistance Program (FAP)
(2) Regional FAP Billet Requirement Listing/Installations
Distribution
(3) Arms, Ammunition, and Explosive (AA&E) Screening
(4) Weapons Handling and Security Screening
(5) FAP Assignment Checklist for Category II and III FAP
Personnel
(6) FAP Request

1. Situation. To promulgate policy and instructions pertaining to the FAP in consonance with references (a) through (j).
2. Cancellation. II MEFO 5300.4C/MCIEAST-MCB CAMLEJO 5300.4C.
3. Mission. This Order provides policy and guidance for the preparation, approval, and assignment of military members to the FAP.
4. Execution

a. Commanders Intent. To establish a program of mutual agreement whereby tenant commands agree to provide personnel to Marine Corps Installations East-Marine Corps Base, Camp Lejeune (MCIEAST-MCB CAMLEJ) Installations for the purpose of providing personnel augmentation to compensate for the increased workload associated with supporting tenant commands and their families. Enclosure (1) contains FAP Policy and Procedural Guidance.

DISTRIBUTION STATEMENT A: Approved for public release, distribution is unlimited.

b. Concept of Operations. The FAP will be a coordinated effort between the Commander MCIEAST-MCB CAMLEJ and tenant Commanders. Available personnel will be assigned to the FAP from tenant commands to MCIEAST installations to support the work requirements identified in enclosure (2).

5. Administration and Logistics. Directives issued by these Headquarters are published and distributed electronically on the following website: <https://www.mcieast.marines.mil/staff-offices/adjutant>.

6. Command and Signal

a. Command. This Order is applicable to MCIEAST-MCB CAMLEJ subordinate commands and installations, II Marine Expeditionary Force (MEF) Commands, U.S. Marine Corps Forces, Special Operations Command, Training and Education Command tenants, and all other non-operational and operational tenant commands located aboard MCIEAST-MCB CAMLEJ Installations.

b. Signal. This Order is effective the date signed.

Chapter 1

FAP Policies and Procedures

1. Program Concept

a. Purpose. The FAP is a formalization of procedures whereby tenant units agree to provide personnel to support MCIEAST-MCB CAMLEJ Installations by providing personnel augmentation to compensate for the increased workload generated by the presence of tenant units and their families while in garrison in accordance with reference (a).

b. Span of Support. Support provided by tenant units is both direct and indirect. FAP billets cover a wide area of Installation activities.

c. Categories of FAP. The FAP is intended to achieve maximum utilization of personnel and to provide enhanced training opportunities for tenant organization personnel whose military occupational specialty (MOS) could be put to better use in garrison situations by the host commander. To facilitate accomplishment of this objective, FAP billets are categorized as follows:

(1) Category (CAT) I. Billet requires specific MOS skillset. Operational and training opportunities for individual MOS skill maintenance and improvements are found predominantly at the installation command, with only limited opportunities at the tenant command. Tenant units should support these identified FAP requirements to 100 percent of their assigned onboard strength in that MOS. Marines assigned in this category will remain in a FAP status for the duration of their tour unless otherwise recalled for deployment.

(2) Category II. Billet requires designated MOS skillset. Operational and training opportunities for the individual MOS skill maintenance and improvements are equally available at both the installation and the tenant command. Tenant units should support these designated FAP requirements in proportion to their assigned onboard strength in that MOS when the situation permits. Marines assigned in this category will remain in a FAP status for the designated period as prescribed in enclosure (2).

(3) Category III. Billet does not require a specific MOS skill set. Tenant units will support these FAP requirements in proportion to their assigned onboard strength in that MOS when the situation permits. Marines assigned in this category will remain in a FAP status for the designated period as prescribed in enclosure (2).

2. Scope. The scope of this Order encompasses specific policy and procedures for screening, assignment, administrative management, accountability, and relief of personnel under the FAP. Personnel support associated with increased threat conditions outlined in

reference (i) will be managed separately from the FAP and are not included in the scope of this Order.

3. Policy

a. Mission Priority. The FAP should not alter the mission and functions of the installation, operational force commands or separate nonoperational tenant commands.

b. Readiness Consideration. Combat readiness and efficiency of the furnishing tenant unit is of primary importance and should be considered when validating and coordinating FAP issues. Parent commands must understand the relationship of the FAP as it relates to the support of their Marines, family members, retirees, contractors, and the local community. Severe reductions in FAP manning could have a diminished effect on support to operating forces (OPFOR) and non-OPFOR commands. If significant FAP vacancies occur, the respective installation FAP Coordinator, in conjunction with the cognizant staff office(s), will determine commensurate reduction in services/support to be provided. This information will be forwarded to the MCIEAST-MCB CAMLEJ Assistant Chief of Staff (AC/S), G-1 for review and further coordination with the II MEF, AC/S G-1 or other tenant commanders as appropriate. Sourcing determinations/resolution will be the responsibility of the AC/S, G-1, MCIEAST-MCB CAMLEJ and II MEF, AC/S, G-1, or Commander of the tenant organization. An annual FAP review will be conducted by the AC/S, G-1, MCIEAST-MCB CAMLEJ and AC/S, G-1, II MEF. Revalidation of authorized FAP billets and requests for changes (increases/decreases) will be considered at that time.

c. Recall. Personnel provided to MCIEAST-MCB CAMLEJ Installations, via the FAP, will remain an integral part of their primary unit and will be available for recall if deployment is ordered at the major command level or higher. When a major OPFOR command deploys and retains an extensive rear element, FAP personnel will still be required by the installation proportionate to the level of support required by the rear elements. For the purposes of this order, deployment includes operational contingencies, major exercises (e.g., Weapons and Tactics Instructor's Course, Integrated Training Exercise, etc.), preparation for and execution of Marine Corps Combat Readiness Evaluation per reference (j), and the Unit Deployment Program.

d. FAP Termination Procedures

(1) A member having completed their prescribed FAP tour assignment, with a replacement onboard that has completed any required training will be returned to their parent command.

(2) Requests to terminate the FAP status for groups of personnel due to a unit deployment should be worked between the installation FAP coordinator and respective tenant command FAP coordinator. Should issues arise between the FAP Commander and tenant unit commander, the

issue will be addressed using the chain of command. Every effort will be made to resolve sourcing issues at the lowest level. Should an issue of this type escalate beyond the local commander both the AC/S, G-1 MCIEAST-MCB CAMLEJ and tenant command AC/S, G-1, or separate unit commander will assess risk and mitigate at their level.

e. Staff Cognizance. The respective installation FAP coordinator maintains overall staff cognizance of the FAP program and is responsible for the initial validation of FAP requirements and sustainment of approved FAP billets. The installation and tenant FAP coordinators are responsible for the day-to-day administration of the program.

4. Procedures and Information

a. Establishment of Emerging FAP Requirements.
Prior to requesting personnel assistance from the AC/S, G-1, MCIEAST-MCB CAMLEJ or AC/S, G-1, II MEF or other tenant unit commander the following procedures shall be followed:

(1) The host supporting installation commander will determine the total number of personnel and specific grade/MOS skills needed to perform the assigned mission. Tenant commanders may also identify and register a need for additive FAP support. Once identified, negotiations between the Tenant FAP Coordinator and Installation FAP Coordinator, should then identify the specific billets to be filled by FAP personnel. Negotiations will include the categorization and preparation of billet descriptions, to include grade/skill and other required qualifications. The host supporting installation commander and the tenant commander should mutually agree to each billet to which a Marine or Sailor is assigned through FAP.

(2) The installation commander will forward the request to the AC/S, G-1, MCIEAST-MCB CAMLEJ for review. The request will be staffed (if necessary) to the cognizant staff department with oversight of the work function for review and return endorsement back to the AC/S, G-1. The AC/S G-1 will then validate the FAP requirement.

(3) Upon validation, the FAP requirement will be presented to the Commanding General, MCIEAST-MCB CAMLEJ and Chief Of Staff (COS), II MEF or separate tenant commander for final determination. If agreed to, enclosure (2) will be amended for inclusion of the new FAP requirement. The requesting installation and supporting tenant command will be notified via return endorsement of the accepted agreement. The respective Installation Commander will submit a Table of Organization and Equipment Change Request in accordance with reference (b). The tenant command will provide a sourcing solution as directed by their chain of command along the agreed timeline.

(4) Host installation commanders should anticipate the disruption and associated manpower shortages that will occur when contingencies require the recall of FAP personnel back to their parent

units. Depending on its scope and immediacy, a recall can have little to severe impact on the host installation. To mitigate the impact, host installation commanders should establish and maintain plans that identify and provide for manning critical FAP billets when a recall does occur. Possible resources may include but are not limited to; Internal Resources/Reorganization, Temporary Service Contracts providing funding availability and employment of Individual Mobilization Augmentee (IMA) personnel.

(5) Memorandums of Agreement/Memorandums of Understanding or local FAP agreements between II MEF Major Subordinate Commands or Elements and Installation Commanders without CG, MCIEAST-MCB CAMLEJ or CG, II MEF review and approval are not authorized.

b. Review of Existing FAP Requirements and Procedures. An annual joint FAP validation/review will be initiated and chaired by the AC/S, G-1, MCIEAST-MCB CAMLEJ and the AC/S G-1, II MEF. Changes resulting from this review will be submitted for consideration and approval as outlined above. Any emerging FAP requirements that require immediate sourcing should be staffed to the AC/S, G-1 MCIEAST-MCB CAMLEJ for validation and subsequent II MEF review/approval.

c. Personnel Welfare. Commanding Officers (COs) of MCIEAST-MCB CAMLEJ Installations are responsible for the personal and professional welfare of supporting FAP Marines. COs of tenant units retain vested interest in their Marine's personal and professional growth of performance which should be monitored jointly. Coordination and cooperation between MCIEAST Installations and furnishing tenant units is essential. Installation commanders have identical responsibility for FAP personnel just as they do for their own permanent personnel.

Chapter 2

Personnel Criteria

1. Personnel Assignment Policy

a. Optimal Tour Length. Optimal FAP tour lengths are indicated within the column heading of "TOUR", in enclosure (2). Tour lengths are negotiable on a case-by-case basis dependent upon the individual nominated (experience and training) and the circumstance (obligated service, deployment). The standard assignment period for a CAT II or III FAP is six months to a maximum of 12 months based upon the billet criteria outlined in enclosure (2) unless otherwise noted as a seasonal requirement. To protect the Marine's career development, assignments to CAT II and III billets should be no longer than 12 months. Special circumstances may permit assignment to the FAP in excess of 12 months as long as impact to career development and progression is not a factor.

2. General Assignment Prerequisites. All personnel assigned to the FAP must meet the following prerequisites:

a. Obligated Active Service. On the effective date of assignment, a Marine must have sufficient obligated active service remaining to complete the prescribed FAP tour. Careful consideration must be given to those Marines that may be contemplating "terminal leave" or transitional training programs (Skill Bridge, Interservice Transfer, internships, etc.) and assigned to the FAP to ensure a complete FAP tour. Other applicant programs such as Early Release Retirement Programs, Special Duty Assignments, and Enlisted or Officer commissioning programs should also be considered when determining obligated service requirements. Personnel assigned to the FAP must have a minimum of 60 days of obligated service left on contract after their scheduled rotation date to be eligible for assignment to the FAP. Exceptions to the 60-day policy may be permitted providing all transition classes and requirements were met prior to FAP assignment. Exceptions will be handled on a case-by-case basis and require a consensus between the installation and tenant FAP coordinators.

b. Billet Qualifications. Personnel assigned to the FAP must meet any special prerequisites for the billet as identified in enclosure (2).

c. Pending Actions. A Marine must not be pending court-martial, non-judicial punishment (NJP), administrative/medical separation, humanitarian transfer, unresolved Family Advocacy issues, or a civil court appearance. Personnel assigned to weapons handling billets must not have pending disciplinary action by military or civilian authorities for domestic violence to be compliant with the Lautenberg Amendment.

d. Force Preservation Program. Personnel assigned to the Force Preservation Program as high risk are disqualified from assignment to the FAP. Personnel assigned low or medium risk may be assigned providing all other provisions of this Order are met. Personnel assigned to the FAP who are subsequently assigned to the Force Preservation Program as a high or medium risk will be assessed to determine continued eligibility of FAP assignment. Personnel found ineligible due to the Force Preservation assignment will be returned for replacement.

e. Conviction by Courts-Martial/Civil Court. A Marine must not have been convicted by courts-martial within six months prior to assignment, or under suspended sentence, as a result of courts-martial. The 1996 Lautenberg Amendment prohibits personnel convicted of a felony, domestic violence misdemeanor, or subject to a domestic violence protective order to ship, transport, possess or receive firearms or ammunition and will not be assigned to the FAP.

f. NJP. A Marine must not have been awarded NJP within three months prior to assignment or under suspended punishment as a result of NJP. The number of NJPs awarded to an individual does not constitute ineligibility. However, disciplinary trends such as unauthorized absence (UA) will constitute grounds for rejection if the offense occurred within a three-month period prior to assignment.

g. Derogatory Record. A Marine must not have received any derogatory administrative remarks in their service record book to include substandard performance of duty, not recommended for reenlistment, and termination for cause from a previous FAP tour within three months of their last assignment.

h. Disciplinary Action. Unit commanders will request the immediate termination of FAP personnel who are in a UA status, In Hands of Civilian Authorities, and In Hands of Military Authorities in excess of 10 working days or projected to exceed 10 working days. When termination orders are received, liaison with the respective parent command for personal effects disposition will be made.

i. JEPES Command Markings. A Marine must not have average Command Markings in service markings of less than 2.0, with no adjudication within the last 180 days. Acceptance of an individual with average markings of less than 2.0 may be made only in exceptional cases, as determined by prior concurrence of the Installation FAP Coordinator and the Supporting FAP Coordinator. All reporting occasions and marks must be reported and up to date in the systems of record prior to the FAP assignment.

j. Indebtedness/Substance Abuse. A Marine must have no history of failure to pay debts. In addition, a Marine must have no in service history of alcohol or drug abuse unless they have successfully completed an approved substance abuse program.

k. Off Duty Education. Personnel attending off duty education are generally accepted for the FAP providing that the FAP work schedule does not conflict with off duty education attendance. Prior coordination between the Tenant FAP coordinator and Installation FAP Coordinator will be made prior to the assignment of personnel attending off duty education so that conflicts with FAP billet assignment and school attendance can be avoided.

l. Medical. A Marine must not have any chronic physical ailments that prevent or deter performance within the assigned FAP billet. If prescribed medications, potential side effects of the medication(s) should not alter the behavior of the Marine. Special consideration must be given to weapons handling billets to ensure prescribed medications do not result in behavioral changes such as depression, anxiety, or anger/rage as these are disqualifiers for FAP assignment. The determination for suitability will be made by competent medical authority.

m. Weight Standards Personnel assigned to the Body Composition Program (BCP), or Military Appearance Programs defined in reference (h), may be assigned to the FAP providing the special billet requirements contained in enclosure (2) do not restrict BCP assignment. Personnel who exceed weight standards and are not officially assigned to the BCP will be disqualified for the FAP. Parent command's screening personnel for assignment to FAP billets must ensure they review billet prerequisites outlined in enclosure (2).

n. Uniform Issues. A Marine must possess a full issue of military uniforms.

o. Hardship. A Marine will not be considered if a severe family or personal hardship is caused by assignment to the FAP.

p. Selective Reenlistment Bonus (SRB) Program. Marines entitled to an SRB may be assigned to the FAP when assigned to a billet requiring their bonus skill, per reference (c). Marines who have received an SRB and are awaiting orders or a school seat should not be assigned to the FAP.

q. Training/Weapons Regualification. Personnel assigned to the FAP after 1 April of the fiscal year must have completed, if required, annual marksmanship regualification with their parent command.

r. Completed Arms, Ammunition, and Explosive (AA&E) Screening. Marines nominated to fill FAP Billet Identification Codes (BICs) identified in enclosure (2) must have a completed AA&E Screening Checklist completed by the parent command prior to screening/acceptance to the FAP. The checklist is comprised of multiple forms: enclosure (3), which is completed by the parent command's Medical Officer, and enclosure (4), which must be completed by the parent command and certified AA&E Officer. Additionally, the DD Form 2760, Qualification to Possess Firearms or Ammunition, must be completed by each individual

II MEFO 5300.4D
MCIEAST-MCB CAMLEJO 5300.4D
7 Oct 24

being armed in the execution of their duties and retained by the command. Both forms will be included with the member's FAP orders.

3. Special Assignment Prerequisites. Personnel assigned to the FAP must meet the specific billet prerequisites identified in enclosure (2).

4. FAP Review. A joint FAP review will be scheduled annually by the MCIEAST-MCB CAMLEJ installations FAP coordinator and tenant FAP Coordinator's. The selected date for this review should allow for maximum participation by both installation and tenant FAP coordinators in addition to any subject matter experts from employing activities should detailed discussion be necessary to resolve support issues. Installation units and tenant organizations will review and validate FAP billet requirements and be prepared to discuss changes, additions, and deletions.

Chapter 3

Administration

1. General

a. FAP Requirements. Current billet requirements and specific billet assignment criteria is contained in enclosure (2).

b. Fill Responsibilities. It is the responsibility of the furnishing tenant organization to maintain the designated number of personnel on the FAP and provide for timely replacement and relief.

2. Screening

a. Individual Nomination. To standardize the screening process, parent commands are required to complete the screening checklist in enclosure (5). Certification of this checklist must be completed/signed by senior leadership within the Marines direct chain of command. The parent command will provide a signed copy to the installation FAP coordinator upon check-in.

b. Selection Process. Installation FAP screening will be accomplished by the parent command, tenant FAP coordinator and Installation FAP coordinator. Nominees will not be rejected, provided they meet the general and special assignment prerequisites outlined within this directive. Individuals will not be terminated from the FAP for arbitrary reasons or disqualified for arbitrary reasons. Personnel who fail to meet the prerequisites of this Order will be disqualified and returned to their parent command with proper endorsement addressing the disqualification.

3. Assignment

a. Assignment Orders. Parent commands will issue FAP orders to personnel selected for the FAP. A copy of each order issued, or modifications thereto, will be furnished to the installation FAP coordinators. FAP assignment orders will include the BIC or line number, billet description to which assigned, and also identify the individual being replaced. The duration of the FAP assignment must be indicated in the orders and will allow additional time for perquisite training requirements.

b. Audits. It is the gaining and detaching unit's responsibility to ensure all audit transactions are reported by Regional Personnel Administration Center (RPAC) involving pay entitlements, FAP join transactions, billet assignment, and any other personal administrative changes.

4. Reporting and Endorsement of Orders. Personnel assigned to the FAP will report to the appropriate Installation FAP coordinator. The installation FAP coordinators will provide a reporting endorsement and

provide further instructions. Personnel must report with tenant unit FAP orders, FAP screening checklist and billet associated checklist(s). Personnel reporting without the required records will be returned to their parent command without an endorsement. The check-in period and billet turnover/training period should not be considered under the same time period, as each billet has specific turnover, training periods, and requirements.

5. Transportation. Parent commands are responsible for furnishing transport to the installation FAP coordinator. Upon FAP termination, the installation unit is responsible for return transportation to the member's parent command.

6. Entitlements

a. Housing. A member assigned to FAP who resides in the Bachelor Enlisted Quarters or Bachelor Officer Quarters at their parent command would normally relocate to a barracks room managed by the FAP command, at no cost to the government. A married member in receipt of Basic Allowance for Housing (BAH) at the with-dependent rate will not have their entitlement changed without coordination with the member's parent command. Members authorized BAH at the without-dependent rate will not have their entitlement changed without coordination with the member's parent command. Situations that require a BAH change in order to maintain good order and discipline will be coordinated between the FAP unit commander and the member's parent command.

b. Basic Allowance for Subsistence (BAS) Monthly. BAS-Monthly current allowance should not change to a lower amount due to assignment to a FAP requirement. If requirements dictate a change in BAS-Monthly entitlement an adjustment is authorized while in a FAP status. Upon return to their parent command their BAS-Monthly will be reestablished to the rate paid prior to assignment to FAP.

c. Special Pay. A Marine's entitlement to special pays will continue while in a FAP status providing adherence to all special pay requirements are met while assigned FAP.

7. Personnel Reporting

a. Commencement and termination of FAP will be reported into the Marine Corps Total Force System (MCTFS) by the installation RPAC. FAP coordinators will ensure internal controls are established to monitor and manage MCTFS reporting for accountability purposes.

b. Parent commands will carry FAP Marines in a FAP status on the Unit Management Strength Report (USMR) within Marine On-Line (MOL). MOL USMR will be updated to track duty status changes and updates such as leave, sick, etc.

c. Commanding Officers of MCIEAST-MCB CAMLEJ Installations are responsible to account for Marines attached to their commands in a FAP

status on the USMR within MOL. MOL USMR will be updated to track duty status changes and updates such as leave, sick, etc.

d. Commanders will ensure assigned personnel are provided the necessary information and guidance to report personnel accountability when required.

8. Performance Evaluations

a. Sergeant (Sgt) and Above. Sergeants and above will have a "TD" fitness report completed and submitted upon assignment to the FAP by their unit reporting senior, as prescribed in reference (d). The FAP Command will ensure fitness reports are submitted for all reporting occasions that occur during the period of FAP assignment to include "FD" reports for completion of FAP assignment.

b. Corporal (Cpl) and Below. Corporals and below will have "TD" JEPES occasion completed and reported upon assignment to the FAP by their parent commander, in accordance with reference (e). Upon occurrence of an event or occasion during the period of FAP assignment, to include "TC" marks for completion of FAP assignment, will be assigned and reported by Base FAP unit commanders.

9. Promotions

a. Supported Command Responsibility. The CO of the respective installation unit, to which individuals are assigned, will be responsible for:

(1) Conducting promotion screening, reporting data necessary for generation of composite scores, conducting interviews, and preparing enlisted promotion warrants.

(2) Submitting appropriate requests for remedial promotion consideration to the Commandant of the Marine Corps (MMPR).

(3) Support training and Professional Military Education (PME) requirements related to promotion eligibility for longer term FAP assignments (greater than six months) of CAT I, II, and III FAPs.

b. Supporting Command Responsibility. It is the supporting commands responsibility to ensure training and PME requirements such as annual marksmanship re-qualification, physical fitness/combat physical fitness tests, required PME (Lance Corporal seminar/Corporals' course) required for promotion eligibility are acquired prior to FAP assignment for all CAT II and III FAP billets. Personnel assigned to short term CAT II and III FAP billets generally are not afforded an opportunity to complete these requirements while assigned FAP due to the nature of assigned duties and limited assignment duration. Special consideration must also be given to seasonal FAP billets (tax center, beach support) to ensure calendar and fiscal year training and PME requirements

necessary for promotion eligibility have been completed prior to assignment to the FAP.

c. Officer and Staff Noncommissioned Officer (SNCO). Officer and SNCO promotion certificates will be forwarded to the installation unit unless the individual desires presentation by the parent command.

d. Meritorious Promotion. MCIEAST-MCB CAMLEJ Installation commands will utilize meritorious promotion quotas assigned to them to meritoriously promote FAP personnel.

10. Organization Property/Special Clothing and Equipment

a. Organizational Property. All organizational property will be recovered prior to assigning personnel to the FAP.

b. Special Clothing and Equipment. MCIEAST-MCB CAMLEJ units will issue any special clothing/equipment items necessary for the FAP billet assignment. This clothing/equipment will be recovered from the Marine prior to FAP termination. An exception to this policy is for the Aircraft Rescue Fire Fighting (ARFF) section. Marines who are assigned FAP to ARFF will report/check-in with all required firefighting Personal Protective Equipment (PPE) issued by their parent command. ARFF Marines terminated from the FAP will be returned to their parent units with serviceable firefighting PPE.

11. Training

a. CAT I. CAT I FAP personnel will be provided annual training by the MCIEAST-MCB CAMLEJ Installation FAP command.

b. CAT II. CAT II FAP personnel assigned to a billet for greater than nine months will be afforded an opportunity by the Installation FAP command to complete annual training requirements.

c. CAT III. CAT III FAP assignments should have completed annual training prior to assignment. Every effort will be made by the supporting command to ensure that CAT II and CAT III FAP personnel are trained prior to assignment. Acceptance of personnel with missing annual training will be coordinated between the installation and tenant FAP coordinators.

12. Leave and Liberty

a. Approval Authority. The approval authority for granting of leave and liberty to FAP personnel is the responsibility of the FAP unit commander to which assigned. Unless previously coordinated with the installation FAP coordinator, personnel reporting for FAP with pre-approved leave authorization(s) by the supporting command will be disqualified for FAP assignment.

b. Pre-Separation Leave. Separations or retirement leave must be approved by the member's parent command via the administrative chain of command. FAP Personnel will initiate terminal leave requests with their immediate FAP Commander, who will then forward to the respective tenant command for approval. A replacement must be provided prior to FAP termination for those personnel requesting terminal leave, unless waived by the installation FAP. FAP personnel are required to provide terminal leave dates (if known) during the screening process, to ensure the leave does not interfere with the prescribed FAP billet tour length. Personnel assigned to the FAP who are authorized terminal leave should have a minimum of 60 days of obligated service left on contract after the FAP tour rotation date.

c. Parental Leave. FAP Personnel may choose to initiate parental leave requests with their immediate FAP Commander. Should the requested parental leave dates adversely impact mission requirements the FAP Commander may authorize leave in increments. Commanders may also request for a replacement of FAP personnel if their absence would have a negative impact on the overall mission of the FAP assignment. A replacement must be provided prior to FAP termination for those personnel unless waived by the installation FAP. In such cases, the FAP command will coordinate with the parent command and provide any pertinent leave documentation for consideration. FAP personnel are required to provide parental leave dates (if known) during the screening process, to ensure the leave does not interfere with the prescribed FAP billet tour length.

13. Temporary Additional Duty (TAD) While FAP. Other than occasions mentioned below FAP personnel should not be sent TAD while FAP. Due to constraints of reporting, accountability, readiness, promotions, and evaluation systems TAD from a FAP assignment creates secondary and tertiary effects within these systems causing gaps, omissions, drops and oversights of imperative time sensitive information. Should FAP personnel need to execute TAD orders, coordination will be conducted between the FAP Coordinator and supporting command to properly De-FAP the personnel prior to detaching in a TAD status. Upon completion of the TAD period Parent commands will issue FAP orders to personnel reporting back to the FAP command and resume their assigned duties.

a. CAT I. TAD while assigned to the FAP is authorized for CAT I personnel (Service and Career Level Schools, PME).

b. CAT II. TAD while on the FAP for CAT II personnel is at the discretion of the FAP unit commander providing concurrence is obtained from the parent unit commander. Periods of TAD are concurrent with the FAP period and do not adjust the FAP termination date. TAD for events other than career progression must be coordinated with the installation and tenant unit FAP coordinator. CAT II personnel will be assigned to the billet identification code or line number intended for and under no circumstances will be reassigned to duties outside of the billet intended for unless specifically addressed in the specific billet requirements of enclosure (2).

c. CAT III. CAT III personnel are not typically authorized TAD while FAP and will be considered on a case-by-case basis dependent upon the individual requirement.

14. Discipline

a. Jurisdiction. The installation FAP unit commander will assume responsibility for investigating Uniform Code of Military Justice (UCMJ) offenses allegedly committed by FAP personnel and take the required disciplinary action, if warranted. It is recommended that the FAP unit commander brief the supporting unit commander prior to initiating any disciplinary action.

b. UA. In UA cases, the installation FAP coordinator will immediately be notified by the installation unit commander. On the absentee's 10th day of absence, replacement proceedings will be initiated in order to have a replacement on deck prior to the 20th day of UA. The installation unit will immediately terminate the absentee's FAP on the 10th day of UA. FAP assignment will be terminated and delivered to the individual's parent command and appropriate unit RPAC. Requirements for any administrative reporting and actions fall upon the FAP Unit Commander until termination of FAP occurs. Parent commands will process the required documents to drop a Marine to desertion to include preparation of the DD Form 553.

c. UCMJ/Courts-Martial. Supported unit commanders assume the responsibility for action regarding minor offenses under the UCMJ committed by FAP personnel, where offenses would normally be referred to NJP or trial by summary courts-martial. Exceptions will be coordinated between the unit commanders and the parent unit commander. In cases where the installation unit commander deems trial by special or general courts-martial is appropriate, immediate steps will be taken to terminate the FAP and return personnel to their parent command. Upon termination of the FAP the supporting command should initiate actions to identify and provide a replacement. All associated documents and evidence will be hand carried to the Marine's parent command for action as deemed appropriate. Exceptions will be coordinated between the Installation FAP Coordinator and tenant command FAP Coordinator. Commanders may request termination of FAP for personnel awarded NJP or convicted by a civil court when the adjudicated legal action disqualifies them for FAP assignment in accordance with this Order. Requests for termination will be referred to the installation FAP coordinator for determination.

d. Termination for Other than Disciplinary Reasons. Personnel assigned to the FAP must maintain a positive general attitude and not display any pattern of substandard performance or unacceptable conduct during their FAP assignment. Personnel who have unresolved Family Advocacy issues are ineligible for FAP assignment. Personnel who incur Family Advocacy issues while assigned FAP will be assessed to determine the level of treatment required. Personnel that are unable to fulfill

the responsibilities of the FAP billet due to extended training or counselling will be returned for replacement. Special cases may be referred at any time. Serving the completion of a sentence from NJP does not constitute sufficient reason to retain FAP personnel beyond their normal rotation. In such cases, the FAP command will coordinate with the parent command and provide any pertinent legal documentation for consideration.

15. Administrative Separations. Personnel recommended for administrative separation by the FAP unit commander (regardless of FAP category), will be returned to their parent command for consideration of processing action. The FAP command will provide necessary documentation needed for processing to the member's parent command. Exceptions to this requirement must be coordinated between the Installation staff judge advocate, Installation FAP Coordinator and the supporting unit commander.

16. Category I FAP Termination for Cause. Category I FAP personnel who are subject to administrative separation or have committed serious legal offenses which would normally be referred to a court martial by the supported unit commander should be returned to their parent command for legal or administrative processing. Supporting documentation should be hand delivered from the supported command to the supporting command.

17. Career Planning

a. Reenlistment Interviews. Prior to a FAP assignment of CAT II and III Marines, their parent command Career Planner will conduct a career retention interview, as directed by current career planning regulations. CAT II and III FAP personnel who desire to reenlist will contact their parent command Career Planner. CAT I FAP personnel will seek career planning support from their FAP command Career Planner. The parent command will be informed of all reenlistment requests processed by FAP commands. Mutual communication between the FAP command and the parent command Career Planners will be maintained in order to best assist Marines with their careers.

b. Effecting Reenlistments. Reenlistment of FAP personnel will be accomplished by coordination with the Installation Career Planner and the parent commands' Career Planner.

c. Officer Career Designation. Officer career designations will be processed by the member's parent command. Comments or recommendation information may be provided by the installation FAP unit commander.

18. Death, Serious Injury/Illness, and Hospitalization. Supplemental instructions in this paragraph are not to be construed as a substitute for the detailed instructions contained in references (g).

a. Death. In the case of the death of a Marine or Sailor assigned to the FAP, casualty procedures will be followed in accordance with references (g). FAP unit commander will ensure notification of member's parent command.

b. Very Serious/Serious Injury/Illness or Incapacitation. Upon notification or occurrence of a very serious/serious injury/illness or incapacitation of a Marine or Sailor assigned to the FAP, procedures will be followed in accordance with references (g).

c. Hospitalization. Personnel hospitalized for other than very serious/serious injury/illness or incapacitation, while assigned to the FAP, will remain in a FAP status provided the hospitalization (including recuperation, convalescent leave, or sick in quarters) does not exceed 10 consecutive days. Otherwise, the FAP unit will process the individual's FAP status on the 11th day of hospitalization, then notify the supporting command via the installation FAP coordinator.

d. Replacements. Installation FAP units will notify the appropriate FAP coordinator on the first working day subsequent to the death, very serious/serious injury/illness, incapacitation, or excess hospitalization period to initiate replacement proceedings. The installation FAP coordinators will notify the tenant FAP coordinator to discuss further actions regarding replacements.

19. Tour Extensions

a. Requests. Personnel may be extended on the FAP for as many months as considered mutually beneficial as concurred upon by both the installation command and tenant command. Extensions which allow for a tour length in excess of 12 months are not normally considered mutually beneficial unless the individual is assigned within their primary MOS or are within 180 days from separating from service. Requests for tour length extension must be forwarded in writing to the individual's parent command via the appropriate FAP coordinator, not less than 30 days prior to the normal rotation tour date. Enclosure (6) will be utilized to request FAP extensions. This request form can be signed electronically and will be forwarded via e-mail.

b. Final Action. Final decisions on all requests for tour extensions rest with the member's parent command or FAP unit coordinator. If approved, parent commands must provide the member with an orders modification for the duration of the tour extension.

20. Tour Termination

a. Liaison. For continuity and coordination, installation FAP coordinators serve as the primary liaison with the tenant command FAP coordinator in all cases involving termination or replacement. The installation FAP coordinator will notify the tenant FAP coordinator upon occasion of termination. Enclosure (6) will be utilized to

initiate personnel replacement actions. This request form can be signed electronically and will be forwarded via e-mail.

b. General Guidance. The spirit and intent of the FAP will not be served if arbitrary terminations are condoned. Once assigned, FAP personnel have the same status as their permanent personnel counterparts. FAP personnel will not be treated as a transient entity, subject to termination for the slightest provocation. Unless fully justified, requests for termination of FAP because of personal indifference or individual preference will not be considered.

c. Conditions for Termination. A Marine's FAP status will be terminated no earlier than five working days from the date the assigned replacement reports, but not later than the termination date directed in the reporting endorsement on the relief's FAP assignment orders. If assigned to a FAP billet that requires on the job training or skills qualification training, e.g., Marksmanship Coach (MOS 0933), Marksmanship Instructor (MOS 0931), Guard (MOS 8151), Volunteer Income Tax Assistance Clerk, etc., termination of orders within five working days will commence upon successful completion of the replacement's training period. Marksmanship Instructors (MOS 0931) must successfully complete both 0931 and 0933 training classes before commencement of the training period. Installation units will adhere to the parameters specified below in terminating individuals from the FAP under the following conditions:

(1) Personnel pre-approved for separations leave by their parent command can complete the separation process in a FAP status. Early termination will be handled on a case-by-case basis between the supporting unit's FAP coordinator and the installation FAP coordinators.

(2) The installation FAP coordinator will be notified in all cases of reassignment or permanent change of station (PCS) transfer in order to initiate the replacement process. Once status is verified, FAP personnel will be terminated prior to the effective detachment date cited in the orders issued by the parent command. Recipients of short notice reassignment or PCS orders (less than 20 days to detachment date) will be terminated in order to execute their orders on the effective date. Priority will be given to identifying and assigning replacement personnel under these circumstances. Replacement personnel will be required to have the necessary obligated service to fulfill the entire prescribed FAP tour outlined in enclosure (2).

(3) Requests for termination for cause will contain explicit grounds for termination and any disciplinary and/or administrative action taken. Counseling sessions must be documented by a NAVMC 118(11) entry. If the request is approved by the Installation FAP Coordinator, termination of assignment will be affected as soon as final administrative action is completed. A brief narrative will be included in the FAP termination endorsement. The installation FAP

coordinator must notify the tenant command FAP coordinator to arrange for a replacement.

(4) Individuals reenlisting, who are entitled to SRB payment and desire to remain on the FAP after reenlistment, may not be assigned to a billet outside their primary MOS, unless a waiver of MOS restriction is obtained. It is the responsibility of the Installation unit to initiate a waiver request. If a waiver is denied, the individual will be terminated from the FAP and returned to the parent command immediately following reenlistment.

(5) Individuals awarded NJP or convicted by civil court may be terminated from the FAP. Determination to terminate such individuals will be based upon the circumstances of the case. For example: An individual awarded NJP for petty larceny could not reasonably remain on the FAP in a billet requiring public trust; i.e., a billet requiring accountability for government funds.

(6) An individual assigned to the FAP who has been identified by a positive urinalysis test sample or is otherwise involved in a documented drug related incident, will be immediately terminated from FAP, and returned to their parent command. Assignment of replacement personnel should be expedited under these circumstances.

(7) With the concurrence of the tenant FAP coordinator, personnel may be terminated for good and sufficient reasons. This pertains to personnel who after 30 days of observation are not qualified for the FAP billet to which assigned. Examples of this might be: an individual's inability to complete a range coach course; an inability to project as an instructor; or inability to pass the open water course. The installation FAP Coordinator will be notified in each case. If mutual consent cannot be reached between the installation FAP coordinator and the member's tenant FAP coordinator regarding termination, the FAP command will provide written justification to the MCIEAST-MCB CAMLEJ installation FAP coordinator for coordination with the AC/S, G-1, or separate tenant commander for final decision. Termination will not constitute a bar from reassignment to another FAP billet if the parent command approves.

(8) Marines will be terminated as soon as possible when requested by the parent commander via the tenant FAP coordinator for good and sufficient reasons. Such requests will be addressed to the installation FAP coordinator and include provisions for replacement.

(9) Individuals hospitalized in excess of 10 days will be terminated on the 11th day of hospitalization.

d. Check-Out. All FAP personnel being terminated will be allotted check-out time at the Installation unit level not to exceed three working days. When check-out is completed, FAP personnel will be directed to report to the installation FAP coordinator for issuance of a FAP termination endorsement.

II MEFO 5300.4D
MCIEAST-MCB CAMLEJO 5300.4D
7 Oct 24

21. Awards. Award recommendations for category I FAP personnel that coincide with retirement/transfer to the Fleet Marine Corps Reserve will be submitted by the installation unit having cognizance over the individual. Retirement/transfer awards for personnel assigned as a category II or III FAP should be submitted by the parent command.

22. Watch Standing. Personnel assigned to the FAP will be required to participate in military duties such as Officer of the Day, Command Duty Officer, Duty Noncommissioned Officer (DNCO), and Assistant DNCO commensurate to the number of duties that the supported command's organic personnel perform.

Individual Conducting Screening			
Rank :		Full Name :	
SSN :	MOS :	Billet :	
Date of screening :		Signature :	

SUBJECT	YES	NO	N/A	REMARKS
Individual's medical record has been screened by a competent medical authority. There are no medical conditions that would prevent this individual from handling AA&E.	☐	☐	☐	
Individual's Services Record / Officer Qualification Record / Personnel File has been screened. There is no derogatory information that would prohibit this individual from handling AA&E.	☐	☐	☐	
Individual has no pending legal action and/or convictions by court-martial, civilian courts, or non-judicial punishment that would prohibit this individual from handling AA&E.	☐	☐	☐	
Individual demonstrates the requisite maturity, judgment, and leadership required to handle AA&E.	☐	☐	☐	
Has the individual had a National Agency Check (NAC) or Entrance National Agency Check (ENTNAC) completed and is the result posted in the MMS system or appropriate personnel file?	☐	☐	☐	
Has the individual qualified with the required security weapon within the last 12 months?	☐	☐	☐	
Has the Individual completed instruction in the use of deadly force and signed a deadly force certification, if required to be armed in the performance of his/her duties?	☐	☐	☐	

Based on the above information, I have determined that the subject Individual (check one):

- ☐ **does meet** the personnel screening requirements to handle AA&E in performance of their regular duties.
- ☐ **currently does not meet** the personnel screening requirements to handle AA&E in performance of their regular duties. Individual will be **re-evaluated in** ____ **days**.
- ☐ **can not meet** the personnel screening requirements to handle AA&E in performance of their regular duties. A summary of the findings for non-qualification are attached. If appropriate, the command will request that action be taken to re-train and/or reassign subject individual to an occupational field not requiring routine handling of AA&E.

Retention: This Record will be maintained for one year after termination of the individual's assignment, or one year after final interview if the individual is disqualified during the screening or re-screening process.

FOR OFFICIAL USE ONLY

QUALIFICATION TO POSSESS FIREARMS OR AMMUNITION

PRIVACY ACT STATEMENT

AUTHORITY: 18 U.S.C. 922(g)(9); E.O. 9397.

PRINCIPAL PURPOSE(S): To obtain information to determine if you have been convicted of a crime of domestic violence which would disqualify you from shipping, transporting, possessing or receiving either Government-issued or private firearms or ammunition and to determine if reassignment, reclassification, detail or other administrative action is warranted. Your Social Security Number is solicited solely for purposes of verifying your identity.

ROUTINE USE(S): To the Department of Justice so that such information can be included in the National Instant Criminal Background Check System which may be used by firearm licensees (importers, manufacturers or dealers) to determine whether individuals are qualified to receive or possess firearms and ammunition.

DISCLOSURE: Mandatory for all personnel who are required to certify. Failure to provide the information may result in (1) (military only) the imposition of criminal or administrative penalties for failing to obey a lawful order, and (2) (civilian only) the imposition of administrative penalties, to include removal from Federal service. However, neither your answers nor information or evidence gained by reason of your answers can be used against you in any criminal prosecution for a violation of Title 18, United States Code, Section 922(g)(9), including (military only) prosecutions under the Uniform Code of Military Justice, based on a violation of Section 922(g)(9), for conduct which occurred prior to the completion of this form. The answers you furnish and any information resulting therefrom, however, may be used against you in a criminal or administrative proceedings if you knowingly and willfully provide false statements or information.

SECTION I - INSTRUCTIONS

An amendment to the Gun Control Act of 1968 (18 U.S.C. 922) makes it a felony for anyone who has been convicted of a misdemeanor crime of domestic violence to ship, transport, possess, or receive firearms or ammunition. It is also a felony for any person to sell or otherwise dispose of a firearm to any person so convicted.

The Department of Defense has, by policy, expanded the prohibitions contained in Title 18 Section 922(g)(9) to those military or civilian personnel who have felony convictions for crimes of domestic violence. Convictions of crimes of domestic violence do not include summary court-martial convictions, the imposition of nonjudicial punishment (Article 15, UCMJ), or deferred prosecutions (or similar alternative dispositions) in civilian courts. Furthermore, a person shall not be considered as having committed a "crime of domestic violence" for purposes of the firearms restriction of the Gun Control Act unless all of the following elements are present:

- (1) the person was convicted of a crime;
- (2) the offense has as its factual basis the use or attempted use of physical force, or threatened use of a deadly weapon;
- (3) the convicted offender was at the time of the offense:
 - (a) a current or former spouse, parent or guardian of the victim,
 - (b) a person with whom the victim shared a child in common,

- (c) a person who was cohabiting with or has cohabited with the victim as a spouse, parent, or guardian, or
- (d) a person who was similarly situated to a spouse, parent, or guardian of the victim;

(4) the convicted offender was represented by counsel, or knowingly and intelligently waived the right to counsel;

(5) if entitled to have the case tried by jury, the case was actually tried by jury or the person knowingly and intelligently waived the right to have the case tried by jury;

(6) the conviction has not been expunged or set aside, or the convicted offender has not been pardoned for the offense or had civil rights restored, unless the pardon, expungement, or restoration of civil rights provides that the person may not ship, transport, possess or receive firearms.

If you have ever received a domestic violence conviction: (1) you may not possess any firearm or ammunition; and (2) you must return any Government-issued firearm or ammunition to your commander or immediate supervisor; and (3) you must take steps to relinquish possession of any privately owned firearms or ammunition. Furthermore, any previously issued authorization to possess a firearm or ammunition is revoked.

If you have any questions, or you are uncertain if you have such a conviction, you may wish to contact a legal assistance attorney, if eligible, or a private attorney, at your own expense.

SECTION II - QUALIFICATION INQUIRY *(Complete and return to your commander or immediate supervisor within 10 days of receipt)*

1. HAVE YOU EVER BEEN CONVICTED OF A CRIME OF DOMESTIC VIOLENCE AS DESCRIBED ABOVE: *(Initial and date)*

YES	NO	I DON'T KNOW <i>(Provide explanation on reverse)</i>
------------	-----------	---

2. IF YOU ANSWERED "YES" TO THE FIRST QUESTION, PROVIDE THE FOLLOWING INFORMATION WITH RESPECT TO THE CONVICTION:

a. COURT/JURISDICTION	b. DOCKET/CASE NUMBER
c. STATUTE/CHARGE	d. DATE SENTENCED (YYYYMMDD)

3. CERTIFICATION. I hereby certify that, to the best of my information and belief, all of the information provided by me is true, correct, complete, and made in good faith. I understand that false or fraudulent information provided herein may be grounds for criminal and/or administrative proceedings, to include (if civilian) adverse action, up to and including removal, and (if military) disciplinary action under the Uniform Code of Military Justice. I further understand that I have a continuing obligation to inform my Commander or Supervisor should I be convicted of a crime of domestic violence in the future.

FORCE

Name (Last, First, M.I.) _____ Date _____

Rank/Grade _____ Billet _____

1. Inherent Right of Self Defense. Unit commanders always retain the inherent right and obligation to exercise unit self-defense in response to a hostile act or demonstrated hostile intent. Unless otherwise directed by a unit commander as detailed below, I may:

a. _____ Exercise individual self-defense in response to a hostile act or demonstrated hostile intent.

b. _____ However, I understand that when I am assigned and acting as part of a unit, my individual self-defense should be considered a subset of unit-self defense. As such, my unit commander may limit my individual inherent right of self-defense.

2. De-Escalation and the Use of Non-Deadly Force. I understand that:

a. _____ When time and circumstances permit, the threatening force should be warned and given the opportunity to withdraw or cease threatening actions.

b. _____ Normally, force is to be used only as a last resort, and the force used should be the minimum necessary. The use of force must be reasonable to counter the threat. If force is required, non-deadly force is authorized and may be used to control a situation and accomplish the mission, or to provide self-defense of DOD forces, defense of non-DOD persons in the vicinity if directly related to the assigned mission, or in defense of the protected property, when doing so is reasonable under the circumstances.

3. The Use of Deadly Force. Deadly force is to be used only when all lesser means have failed or cannot reasonably be employed. Deadly force is authorized under the following circumstances:

a. _____ When there is reasonable belief that a person(s) poses an imminent threat of death or serious bodily harm to DOD persons. Self-defense includes defense of other DOD persons in the vicinity.

b. ____ In defense of non-DOD persons in the vicinity, when directly related to the assigned mission.

c. ____ When deadly force reasonably appears to be necessary to prevent the actual theft or sabotage of properly designated assets vital to national security.

d. ____ When deadly force reasonably appears to be necessary to prevent the actual theft or sabotage of inherently dangerous property (i.e., explosives, weapons ammunition, etc.).

e. ____ When deadly force reasonably appears to be necessary to prevent the sabotage of national critical infrastructure.

For the purposes of DOD operations, "national critical infrastructure" is defined as President-designated public utilities, or similar critical infrastructure, vital to public health or safety, the damage to which the President determines would create an imminent threat of death or serious bodily harm.

4. Additionally, when directly related to the assigned mission, deadly force is authorized under the following circumstances:

a. ____ When deadly force reasonably appears to be necessary to prevent the commission of a serious offense that involves imminent threat of death or serious bodily harm (for example, setting fire to an inhabited dwelling or sniping), including the defense of other persons, where deadly force is directed against the person threatening to commit the offense. Examples include murder, armed robbery, and aggravated assault.

b. ____ When deadly force reasonably appears to be necessary to prevent the escape of a prisoner, provided there is probable cause to believe that such person(s) have committed or attempted to commit a serious offense, that is, one that involves imminent threat of death or serious bodily harm, and would pose an imminent threat of death or serious bodily harm to DOD forces or others in the vicinity.

c. ____ When deadly force reasonably appears necessary to arrest or apprehend a person who, there is probable cause to believe, has committed a serious offense (as indicated in paragraph 3, above).

5. Additional Specific Instructions:

a. ____ I am prohibited from firing warning shots.

b. ____ I will remove my pistol from my holster only when:

(1) The use of deadly force is imminent, or to affect the apprehension of a suspect I believe to be armed or dangerous, or to gain control of a dangerous situation.

(2) Ordered to do so by competent authority.

(3) Returning it to storage.

(4) Cleaning it in an authorized area.

c. ____ I will show due regard for the safety of innocent bystanders when using force.

6. ____ I will not point any firearm at any person, except:

a. ____ To gain control of a situation.

b. ____ When I intend to use deadly force.

c. ____ During on-duty reaction drill, only after I have checked the firearm and it has also been checked by my supervisor to ensure no rounds are in the weapon.

7. ____ If I chamber a round in a rifle or shotgun, or remove my pistol from its holster, proper notifications will be made and a Statement of Force form will be completed.

8. ____ When clearing a firearm, I will follow current policies and procedures pertaining to firearms handling, clearing, and safety.

a. No weapon will be cleared without a supervisor (Marine Sergeant and MCCLEP GS-09 or above) present and clearing will be accomplished only in the designated area (i.e., clearing barrel).

b. When drawing a weapon from the armory/arms room, rounds will be drawn after ensuring the weapon is clear.

c. When returning a weapon to the armory/arms room, rounds will always be properly accounted for and turned in prior to clearing the weapon, unless a round has been chambered.

7 Oct 24

d. I will report any violation of these policies or procedures immediately to the proper authority.

9. ____ I am prohibited from using a privately owned firearm or ammunition on duty.

10. ____ During training exercises and testing, I will check my firearm and have it double checked by another person, to ensure that no live rounds are in the weapon and that there is no magazine inserted in the weapon.

11. ____ I will comply with these principles when using non-lethal weapons or techniques in such a manner that could cause death or serious bodily harm.

12. Acknowledgement. I have been instructed on the use of deadly force and acknowledge that I understand and will comply with the basic rules for the use of force and weapons safety. I acknowledge that failure to comply with the basic rules for the use of force and weapons safety may result in administrative, disciplinary, and/or criminal penalties.
