

COMMANDING GENERAL'S POLICY STATEMENT ON SUPPORT FOR THE DEPARTMENT OF DEFENSE (DOD) PRIORITY PLACEMENT PROGRAM

DoD Instruction 1400.25 of 6 April 2009 and the DoD Priority Placement Program Handbook of July 2011, minimizes the adverse effects on employees caused by actions such as, but not limited to, reductions-in-force, base closures, realignments, consolidations, contracting out, position classification decisions, rotation from overseas, and transfers of function.

The Priority Placement Program is the primary vehicle for implementing this policy throughout the Department of Defense (DoD). This program is a strong, unified, defense-wide effort that impacts on recruitment and placement by matching vacancies against the registration of surplus employees.

The objectives of the Priority Placement Program have my personal support and I am committed to its utilization. I expect the support of managers and supervisors at all levels in providing placement assistance to the well qualified, displaced DoD employees registered. We need each civilian fighting position manned with professionals, skilled and qualified to accomplish the mission assigned. With your support, the objectives of the Priority Placement Program can be achieved and we will continue to serve as a model for other federal agencies in caring for our employees.

A handwritten signature in black ink, consisting of a stylized 'J' followed by 'D' and a long horizontal stroke.

J. D. ALFORD
Brigadier General, U. S. Marine Corps
Commanding General
